ABOUT MYSELF

Angular Frontend Developer with 6+ years' experience delivering scalable apps in telecom, banking, and healthcare. Passionate about UI architecture, clean code, and mentoring. Available for freelance missions (remote/hybrid).

WORK EXPERIENCE

CESI – Brussels, Belgium

City: Brussels | Country: Belgium

Senior Frontend Developer

[10/04/2024 – 31/12/2024]

Built a complete Angular web application for employees of CESI's client companies to manage their occupational health, including appointments, medical forms, documents, and training. The platform served as a **secure self-service portal**, reducing administrative overhead for CESI and improving employee engagement with health services.

- **Developed the application from scratch**, based on Figma designs, with a mobile-first and accessible approach.
- **Integrated ItsMe authentication** for secure user login and **Firebase push notifications** for real-time updates.
- **Created a reusable Design System**, later adopted by other CESI frontend projects.
- **Led frontend/backend integration**, collaborating with backend teams to align on APIs and adapt to changing requirements.
- **Implemented CI/CD pipelines** with GitLab and Azure DevOps for streamlined deployment and quality control.
- **Ensured accessibility (WCAG)** compliance across components and views.

Stack: Angular 17, TypeScript, NgRx, Firebase, HTML5, SCSS, GitLab, Azure DevOps

PROXIMUS – Brussels, Belgium

City: Brussels | Country: Belgium

Frontend Developer

[10/10/2020 – 05/04/2024]

Developed internal tools for enterprise clients to autonomously manage mobile subscriptions (activation, changes, termination), reducing support load and improving operational efficiency.

- **Contributed to the development and maintenance** of several web tools for **enterprise clients** to manage mobile subscriptions.
- Helped modernize **legacy applications** and improve user experience based on new **business needs**.
- Integrated components into the company-wide **Design System**, ensuring consistency across platforms.
- **Ensured code quality** through bug fixing, code reviews, and collaboration with QA.
- **Supported** other teams by resolving cross-project blockers in a large Agile environment.

Stack: Angular 14, TypeScript, SCSS, HTML5, GraphQL, Magnolia CMS

Tools: Jest, Cypress, SonarQube, JIRA, GitLab, Confluence

MAINSYS – Brussels, Belgium

City: Brussels | Country: Belgium

Full Stack Developer

[05/01/2019 – 05/10/2020]

Modernized mobile banking apps for high-end clients like *Rothschild Martin & Maurel* and *Nagelmackers*. Built secure account management features (transactions, authentication, etc.) and contributed to a shared banking framework to accelerate future deliveries

- **Contributed to the migration** of a legacy mobile banking app, improving both performance and user experience.
- **Developed client-specific banking apps**, adapting the core features to each bank's identity and requirements.
- **Implemented a shared framework**, reducing duplicate work and increasing maintainability across multiple apps.
- **Integrated third-party SDKs** (authentication, payments, analytics) and **assisted with backend tasks** using Java and PL/SQL.
- **Updated** legacy Servlets for backend compatibility with the new architecture.

Stack: Ionic 4, Angular 8, Cordova, Java, Jenkins, JBoss

EDUCATION AND TRAINING

Bachelor in Basic Science Computing

HELB ILYA PRIGOGINE [01/09/2014 – 01/08/2018]

City: Brussels | Country: Belgium | Level in EQF: EQF level 6

LANGUAGE SKILLS

Mother tongue(s): French

Other language(s):

English

LISTENING C2 READING C2 WRITING C2

SPOKEN PRODUCTION C1 SPOKEN INTERACTION C1

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user

SKILLS

Frontend

With 6+ years of experience in Angular (AngularJS Angular2+) / FRONTEND: Angular js / State Management (NGRX, Akita) / Javascript, TypeScript / HTML / CSS / Angular Material / tailwind css / Bootstrap / jest library / Cypressjs

Backend

REST / SQL / NestJS Framework / Mongodb / Mongoose / Firebase: Firestore, FirebaseAuth, Firestore, RealTime database / GraphQL API / websockets / OAuth 2.0 / OpenID Connect / JWT Auth

Best Practices & Methodologies

Design Patterns / Unit Testing / KISS pattern / Agile (Scrum) / Object-Oriented Programming / Continuous Integration / SOLID principles / Clean Code / MVC / DRY / Design Patterns, TDD and DDD / Monorepo / NX / Atlassian stack (Jira, Confluence, ...) / Development Methodologies: Scrum, Kanban / Git / Github / Postman
